

Please reject NAB's Petition 04-160.
Radio broadcasters do not meet my needs. My taste in music does not fit a normal marketing niche. I am an older woman who doesn't like oldies. I like alternative but I don't want to listen to "Sports Junkies" or "Elliot in the Morning." Over the air "free" radio has nothing left for me but traffic and weather. I want the traffic and the weather on the signal I am willing to pay for. I want no advertising.

I sit in traffic for hours a week. XM radio is the only thing that makes this tolerable. XM is great!

Let XM provide local content.

Thanks
